

De 2009 à 2014 l'association Art 'Zygote en collaboration avec l'association Hérésie a organisé sur le sentier « sculptural de Mayronnes » un parcours musique et danse improvisées.

A large, dark, perforated metal sculpture stands in a natural, outdoor setting. The sculpture is composed of a grid of rectangular openings of various sizes. Several people are seen interacting with the sculpture: one person is lying on top of it, another is climbing on the side, and others are visible in the background. The scene is brightly lit, suggesting a sunny day. The background shows a clear sky and some greenery.
